

North Texas Community Health Collaborative

Lori Millner Sushma Sharma Danette Tidwell

What is the North Texas Community Health Collaborative (CHC)?

- Collaborative membership comprised of professionals with expertise in:
 - Public Health and Community Health
 - Prevention
 - Data Analysis
 - Health Disparities
 - Strategic Planning
 - Advocacy
 - Cultural and Linguistics specialists
- To provide the citizens of North Texas with a sustainable mechanism for:
 - Assessing the health of their communities
 - Identifying the disparities
 - Collaborating on initiatives to address areas of unmet needs
 - Identifying community resources
 - Measuring outcomes

Why Diabetes?

Prevalence (TDSHS)

- National average 8.2%; Texas State average 9.7%; Tarrant County average 8.5%
- Zip Code 76112 average 12%; Zip Code 76119 average 19%

In Texas

- An estimated cost of diabetes is \$12 billion each year
- Annually, more than 200,000 diabetes related hospital admissions
- The cost of hospitalizations exceeds \$3.5 billion (Texas Diabetes Council)

By 2025

- Our state will be home to 4 Million Diabetes patients
- DFW area may be home to well over 1 Million Diabetes patients (Rowley W, 2011)

MSRB 2013

Diabetes Strategic Plan Goal

To reduce the impact of diabetes in North Texas by coordinating resources and engaging partnerships through comprehensive involvement of stakeholders to increase opportunities for healthier choices with sustainable results.

Compare by Region: The colored gauge gives a visual representation of how your community is doing in comparison to other communities. The three-colored dial represents the distribution of values from the reporting regions (e.g. counties in the state) ordered from those doing the best to those doing the worst (sometimes lower values are better and in other cases higher values are better). From that distribution, the green represents the top 50th percentile, the yellow represents the 25th to 50th percentile, and the red represents the "worst" quartile.

Compare by Average: This gauge shows how the Dallas

County value compares with the median or mean value for

all counties in the state (or all US counties). The gauge is

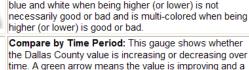

Target: This gauge shows whether or not the Dallas County value meets a specific target. The Dallas County value is represented by the left bar and the target value by the right bar.

red arrow means the value is getting worse. The = (equal)

Target: This gauge shows whether or not a specific target is met. A green check means the target is met and a red "X" means the target is not met.

What Do You Think? How Can We Help?
